Dhruva Shivshankar Choudhari

Java Developer (Entry Level)

Professional Summary:

Accomplished and results-driven software engineer with strong proficiency in Python, SQL, Java and web development. Bring robust analytical skills and exceptional problem-solving abilities honed through experience in data analysis and visualization. My expertise lies in leveraging advanced technologies to drive efficiency, streamline processes, and inspire innovation across projects. Have successfully designed and implemented scalable solutions for complex business challenges while collaborating effectively with cross-functional teams. Now seek a challenging role where I can apply my technical skills, foster technological advancements, and contribute significantly to the growth of a dynamic organization.

Technical Skills:

Programming Languages:

- Python data analysis and visualization.
- Core Java Proficient in Abstraction, OOP's Concepts and Exceptional Handling.

Databases:

- Oracle SQL capable working on DDL, DML, DQL, DCL, TCL, Joins and Normalization.
- Potential in handling Sub Queries and Complex Query.

Web Technologies:

- HTML: Skilled in semantic HTML, HTML Elements, Attributes, Forms and Tables.
- CSS: Creative in using Box Model, Embedded CSS, External CSS and CSS Management.
- JavaScript: Sound knowledge in Core Java Script and Dom Manipulation.

Backend Development:

- JDBC, Hibernate with JPA, REST APIs.

Frameworks & Tools:

- Spring, Spring Boot, Apache Tomcat, API Apache.

Data Analysis & Visualization:

- Pandas, NumPy, Matplotlib, Jupyter notebook.

Professional Experience:

Data Analyst Intern – Edulyt India, New Delhi (Jan 2024 – July 2024)

- Developed and managed Excel-based reports to support stakeholder decision-making processes.
- Conducted data analysis to uncover trends, patterns, and key business insights.
- Applied statistical methods to create actionable business reports.
- Enhanced data visualization techniques to support informed decision-making.

Projects:

Credit Card Data Analysis & Visualization

- Analyzed customer spending patterns, segmentation, and fraud detection.
- Utilized Python, Pandas, NumPy, and Matplotlib for data-driven insights.

E-Commerce Website Development

- Designed and developed an online shopping platform.
- Implemented customer behavior analytics to optimize user experience and sales.

Dual-Band Microstrip Patch Antenna

- Developed a long-range connectivity antenna for enhanced communication.

Education:

- G H Rasoni College of Engineering, Nagpur – B.Tech in Electronics Engineering (2024)
CGPA: 7.45 (70.7%)
- G H Rasoni Polytechnic, Nagpur – Diploma in Computer Engineering (2021)
Percentage: 79.89%
- D.A.V Public School, Kymore
12th CBSE (2019) – 57%
10th CBSE (2017) – CGPA: 9.2 (87.5%)

Certifications:

- Python Programming – Internshala.
- Web Development – Internshala, Eduonix, Mind Luster.
- Advanced SQL – Great Learning.
- Back-End Engineering and Software Engineer Job Simulation – Forage.

Soft Skills:

- Problem-Solving, Analytical Thinking, Collaboration Teamwork.
- Attention to Detail, Strong Communication Skills

Extracurricular Activities:

- Basketball: National, State, and Inter-College Level Competitor
- Swimming, Guitarist, Sports

Field of Interest:

- Learning New Technologie.
- Software Customization.

Personal Details:

Date Of Birth: 13/03/2001

Mother: Laxmi Choudhari

Languages Known: English, Hindi, Marathi

Marital Status: Unmarried
